Phoebe : Hello Captain !

Captain : Hello I am your captain and here is Phoebe who is going to tell you the steps for getting started on the awesome journey which we call the workshop for C++ .Ok Phoebe handing them to you , promising that you will help them ..

Phoebe : I promise !

https://www.youtube.com/watch?v=bjdsjDP5K_E&t=1s

Ok , Guys . Potato Patato .These are the steps .Brace yourself for the ride .

Step 1 : Set Up C++ in your systems / Laptops/ Linux Machines/Macbooks
https://www.geeksforgeeks.org/setting-c-development-environment/

Step 2 : Go through the Basic syntax of C++
https://www.geeksforgeeks.org/c-programming-basics/

Step 3 : And say hello to the world
https://www.geeksforgeeks.org/writing-first-c-program-hello-world-example/

Step 4 : Starting Practice with Hackerrank
https://www.hackerrank.com/domains/cpp?filters%5Bstatus%5D%5B%5D=unsolved&badge_type=cpp

Step 5 : Send your doubts and solve your classmate's doubts and rock in the doubt contest leaderboard !

Phoebe : Great .Now that you know how to start , I will ask Microsoft CEO to give placement to you all . What do you say , Nadella Bhai .

Nadela Bhai : Azure …

Phoebe : I get the joke you made .Bye everyone ! Have fun learning to code in C++ .
